

John Hancock Tax-Advantaged Dividend Income Fund

Seeks: A high level of after-tax return from dividend income and capital appreciation
Use for: Tax-sensitive equity income

Ticker: HTD

Income emphasis

Typically investing at least 80% of assets in dividend-paying securities

Tax-conscious approach

Targeting securities paying dividends that typically qualify for a more favorable long-term capital gains tax rate

Utilities exposure

Typically emphasizes preferred and common securities in the high-dividend-paying utilities sector

CALL OPTION STATISTICS¹

GROWTH OF A HYPOTHETICAL \$10,000 INVESTMENT

2/27/04 to 6/30/18

The chart illustrates the growth of a hypothetical \$10,000 investment in the fund's common shares based on net asset value beginning on the date noted with all distributions reinvested. The past performance shown here reflects reinvested distributions and is not a guarantee of future results. Your shares will fluctuate in value and, when redeemed, may be worth more or less than their original cost. The most current month-end performance may be higher or lower than the quoted performance and can be found at jhinvestments.com or by calling 800-843-0090.

¹ The fund writes index/sector call options with call strikes typically out of the money. A call option is in the money if the price of the underlying security is above the strike price and out of the money if the price of the underlying security is below the strike price.

² Listed holdings are a portion of the fund's total and may change at any time. They are not recommendations to buy or sell any security. Data is expressed as a percentage of total managed assets and excludes cash and cash equivalents.

YEAR-BY-YEAR TOTAL RETURNS (%)

The past performance shown here reflects reinvested distributions and does not guarantee future results.

WHAT YOU SHOULD KNOW BEFORE INVESTING

As is the case with all closed-end funds, shares of this fund may trade at a discount to the fund's net asset value (NAV). An investment in the fund is subject to investment and market risks, including the possible loss of the entire principal invested. There is no guarantee prior distribution levels will be maintained, and distributions may include a substantial return of capital, which may increase the potential gain or reduce the potential loss of a subsequent sale. Fixed-income investments are subject to interest-rate risk; their value will normally decline as interest rates rise. An issuer of securities held by the fund may default, have its credit rating downgraded, or otherwise perform poorly, which may affect fund performance. The fund's use of leverage creates additional risks, including greater volatility of the fund's NAV, market price, and returns. There is no assurance that the fund's leverage strategy will be successful. Focusing on a particular industry or sector may increase the fund's volatility and make it more susceptible to market, economic, and regulatory risks, as well as other factors affecting those industries or sectors.

Please contact your financial professional if you are interested in purchasing shares of a closed-end fund. For current fund information, visit jhinvestments.com or call 800-843-0090. The fund's literature includes investment objectives, risks, fees, expenses, and other information that you should consider carefully before investing. For account information, call 800-852-0218.

Undistributed net investment income per share ⁶ (\$)	0.0006
Interest-rate swaps	
Percentage of line of credit (%)	25.01

³ Ratings are from Moody's or, if not available, Standard & Poor's or, if not available, Fitch. Ratings composition will change. Individual bonds are rated by the creditworthiness of their issuers; these ratings do not apply to the fund or its shares. U.S. government and agency obligations are backed by the full faith and credit of the U.S. government. All other bonds are rated in a scale from AAA (extremely strong financial security characteristics) down to CCC and below (having a very high degree of speculative characteristics). "Short-Term Investments & Other," if applicable, may include fund receivables, payables, and certain derivatives.

⁴ Closed-end fund shares are not redeemable, but instead are traded in the secondary market and frequently trade at a discount to net asset value. Specialized funds may carry additional risks.

⁵ The difference between total managed assets and total net assets is due primarily to the fund's use of leverage through borrowings; net assets do not include borrowings.

⁶ As of the 10/31/16 annual report.
